## Architectural Review Board Appendix G – Approved Construction Signage

### Approved Construction Sign

Signs identifying the General Contractor, Architect and Landscape Architect may be permitted during construction provided they are mounted on a single earth tone color signboard facing the roadway. The signboard shall conform to the illustration below. The sign may not be placed until all the permits are granted and must be removed prior to final inspection.

**Signs must be placed 25' from the curb and the location must be approved by the ARB.**
